

## esz AG and Voltech cooperate

**esz AG calibration & metrology, one of the largest independent calibration laboratories in Europe, and Voltech Instruments Inc. are cooperating in the field of calibration and repair. Voltech is one of the world's leading suppliers of high-precision test and measurement equipment.**

esz AG and Voltech Instruments Inc. will cooperate in the field of calibration and repair of Voltech test and measurement equipment. The common goal is to provide calibration and repair services at the highest quality level, meeting both ISO/IEC 17025 standards and specific manufacturer requirements.

In the future, esz AG will act as an independent service center for the calibration and repair of Voltech products in Europe and offer its customers calibrations in the name of Voltech. With this agreement, esz AG is currently the only calibration laboratory in the world that is accredited to calibrate the test and measurement equipment of Voltech Instruments.

"We are pleased about the cooperation with Voltech Instruments Inc. Especially the many European users of Voltech instruments, such as the AT5600 transformer tester, will benefit from this cooperation. The cooperation with a company like Voltech Instruments Inc. shows once again that esz AG is one of the most important international suppliers in the calibration business. The cooperation manifests our position as one of the leading and most modern calibration laboratories in Europe", says Daniel Herrmann, Head of Sales at esz AG calibration & metrology.

### About Voltech Instruments Inc:

Since 1987, Voltech Instruments Inc. has been a leading provider of innovative test equipment for the power electronics industry. Since 2013, the company has focused primarily on the wound component tester business. Voltech Instruments Inc. has offices in Blackburn, UK and Fort Myers, FL, USA.
